LIBERIA WANTS AID.

Washington, June 23.—An interesting diplomatic question has been brought to the attention of the president and Secretary of State by Bishop Harrell of the Methodist church.

He is bishop for Africa and his mission is to present an appeal on behalf of the republic of Liberia for an Anglo-American protectorate.

If the republic cannot get a joint protectorate, it will seek such protection from either the United States or Great Britain.

The object of the Liberians is to secure support in the dealings with their neighbors.

COMMANDER SUCCEUMS.

Washington, D. C., June 23.—Another commanding officer of a naval vessel engaged in operations in West Indian waters has broken down on account of the continued heat and strain.

He is commander John F. Merry of the gunboat Machias.

Commander William W. Mead has been assigned to the command of the Machias.

SHE WON'T ABDICATE.

Madrid, June 23.—The press of the city protests that there is no foundation for the reports coming from foreign sources, that it is the intention of the Queen Regent to abdicate. It is semi-officially declared that her majesty is determined to unflinchingly carry out the duties of her position.

The government has no news of the expected attack on Santiago, but entire confidence is felt in the ability of Gen. Linares and Gen. Pareja to meet the emergency. It is reported that great enthusiasm prevails among the troops and citizens of Santiago.

GOES AS INTERPRETER.

Washington, June 23.—The Rev. W. H. Powell, of Tennessee, who has been a missionary from the Baptist church to Mexico for a number of years, has been commissioned by the war department as an official interpreter, to accompany the army to Cuba.

The appointment was secured for Dr. Powell by Representative Richardson, at the request of the board of foreign missions of the Baptist church. The church had decided to transfer Dr. Powell from Mexico to Cuba, but such a transfer at this time would be difficult and dangerous for a private individual, so the church decided to ask an appointment.

THE CABLE IS STILL WORKING.

MADRID, June 23.—The following dispatch, dated yesterday, was posted in the lobby of the chamber of deputies this morning:

The Whole American Army Is Now at Daiquiri, Seventeen Miles East of Santiago.

CHICAGO, June 23.—A special dispatch to the News says that shortly after midnight (today) the landing of General Shafter's entire army was completed at Baiquiri.

The launches continue to remove the Spanish mines from the harbor. There is now no doubt but that the cable run by the St. Louis yesterday was the last line connecting Cuba with the outside world, except the cable running to Key West.

The landing of troops at Daiquiri, seventeen miles east of Santiago, has been in progress for two days. The vanguard was landed under the guns of the American fleet.

WASHINGTON, June 23.—The war department this afternoon received a long report from General Shafter.

He says the government is responsible for sending Admiral Cervera to Santiago, and declares that the fleet was not supplied with the necessary munition, stores, coal, etc. The only plan to pursue, he says, is to close the cortes and suspend the constitutional guarantee.

There will be an interesting case for trial in Justice Settle's court tomorrow. It is against Mr. F. E. He was taken out of the Baptist's orphan home in Louisville, and claims to have been cruelly beaten. He came to the city on a bicycle Monday behind Rev. Penrod's little son, who was staying out there, and became frightened at the alleged treatment of the boy, coming to town and bringing the boy with him. The latter had large imprints on his person, which he claims were made by a whip. Mr. and Mrs. Gardner are prominent church members, and have many friends who will take an interest in the case.

Stares Spain in the Face if the War Is Prolonged—It Means the Total Loss of Her Territories.

THE MONARCHY WILL BE OVERTHROWN.

A Rumor Frightens the City of Cadiz—Thought the American Fleet Was Coming—Spanish Cortes the Scene of Demonstrations.

CRISIS IN SPANISH AFFAIRS SEVERELY THREATENED.

PARIS, June 23.—The Madrid correspondent of the Temps sends a statement by a leading conservative politician that peace has become an absolute necessity for Spain; that a continuance of the war under the present conditions means the sheer ruin of Spain, and her whole colonial empire will be irretrievably lost; that by longer continuing the war the government will commit an unpardonable crime against the country. Peace is the only means of preserving the monarchy, of averting a civil war and the appalling ruin which now stares Spain in the face.

THE SPANIARDS GETTING FRIGHTENED.

CADIZ, June 23.—This city was the scene of an anti-British demonstration yesterday as the result of the apprehension that the Americans intend to bombard Cadiz and other Spanish ports. The immediate fear was caused by the arrival of a merchant vessel which reported that it had been chased by an American warship in the English channel.

THURSDAY, JUNE 23, 1898.

When Cervantes makes his dash to get out of Santiago harbor Sampson will be there to see.

The third Philippine expedition is now bottled to leave San Francisco on Monday. It is said Merritt is to go with it. Whether he will be a mascot remains to be seen.

Notwithstanding that positively the last cable has been cut the Spaniards in Cuba are still sending cable dispatches to Madrid. They probably are using the latest method of telegraphing without wires.

The Fourth Kentucky Regiment, Col. Colon, is to be mobilized on Saturday, Sunday and Monday, and orders have been issued by the Governor to move to the Lexington camp for muster, which will begin immediately on the arrival of the troops.

There is not much danger that the slightest bit of harm will come to Lieut. Hobson and his crew. Only a commander blinded by rage and hate would dare to touch a hair of their heads. Their deaths would be avenged in a 1000-fold ratio with seventy million people the avengers.

GENERAL MERRITT is reported as being still "undecided" when to leave for Manila. As Admiral Dewey is already there, it is in fact perfectly immaterial to the American people whether the alleged warrior ever goes or not. Dewey should by right be the first American governor general of the Philippines.

The latest news is that Porto Rico will be undisturbed until there is something decisive in Cuba. The rule is to divide and conquer, but if we divide ourselves, half the labor of the enemy are accomplished. Too many small armies behind support of each other, give premonition of disaster or uncertain results.

EX-PRESIDENT GROVER CLEVELAND has lifted up his voice to warn the people against the evils of a war of conquest, and thereby puts himself in line with Col. W. J. Bryan. It will be a matter of curiosity to see now whether the Bryan followers will admit that for once Cleveland is right, or whether Bryan will proceed to change his opinions.

SHAFTER's army is to be reinforced at once with 8,000 men, and it is possible he will have great need of them by the time they arrive, especially if it is true as reported, that Linares has 40,000 Spanish soldiers in and around Santiago. It can be set down as a fact that there will be a hot old time in Santiago before a week elapses.

ONE can get any kind of a report he desires as to the condition of affairs in Havana, rumor placing it all the way from starvation to plenty and happiness. But we believe that Blanco's temper is a good index, and his order that the flag of truce shall not be hereafter respected, shows that the Captain General is getting desperate whatever the status of the provision market may be.

THE Cuban Republic now has a navy. It is only one ship it is true, but that one ship is commanded by

an O'Brien, which makes it more than the equal of two. The O'Briens are not exactly Spaniards nor Cubans as will readily be noticed by the name, but are perhaps of French or Italian ancestry. May the navy grow until it is a power on the sea, and the O'Briens become numerous as the sands on the sea shore.

THE Bryan papers are all alone in their abuse of the administration on account of what they call the gross mismanagement of the war. They criticize the Government severely because an army was not thrown against Havana at once. The fact that we had no available army when the war broke out signifies nothing with those unscrupulous papers who can never forget that Bryan and his 16 to 1 loss were defeated in 1896.

THE Goebelized Legislature that passed last winter at Frankfort fixed up a beautiful scheme for gerrymandering three judicial districts and thus virtually stealing them. But a Democratic Court of Appeals has decided otherwise by ruling that redistricting can only take place every ten years and then in accordance with the constitution. This is hard luck on the Democrats, but is refreshing news to all honest people who regard politics as a game to see the new state game frustrated.

WILL General Merritt never get out of the country? He is an eyesore, and the country awaits some heroic act of his, which will redeem him in its estimation. If apron strings hold him back let him take the whole affair with him. All the world loves a lover, but when whining mawkishness destroys a man and kills a hero, it feels that bad material is well thrown away. The world sympathizes with and loves Mark Anthony—not for his love—not for his vices—but because love made him a fighter and a hero.

IMPERIALISM.
The opponents of annexation of Hawaii and of a permanent occupancy of the Philippines in whole or in part have much to say regarding the landmarks of the past and of the historical policies of our government. Even President Cleveland joins the timorous crowd and advises against the spirit of "imperialism."

Nothing can be further from the spirit that actuates the American people today than the dreaded spirit of conquest. The desire to annex Hawaii, to seize Porto Rico and possibly to retain a permanent influence in the Philippines is not the spirit of imperialism. It is but the adapting of itself, on the part of the nation, to new conditions or to old conditions suddenly realized.

It has been only a short time since many popular leaders, both in and out of congress, opposed a strong navy, and it was quite popular to deride the possibility of a foreign war. But war has come and almost the weakest nation in Europe has dared to defy us. Now no one can be found who does not see the necessity of a modern navy able to meet that of any nation on the earth. Thus has a radical change come over large numbers of our people; but it is not imperialism, though the only nations having large navies are the nations of Europe. Our nation is merely adapting itself to circumstances.

The war has demonstrated the necessity of naval outposts. Hawaii is necessary as a base of supplies in the Pacific ocean. Porto Rico is the key to the West Indies. The possession of both is necessary. But to desire them is not imperialism. It is but the taking of proper steps for self protection. The same is true of the construction of the Nicaragua Canal. It is a necessity as a war measure, and as a means of facilitating commerce.

The future course of the United States in the Philippines will not be dictated by any wild desire for national aggrandizement. The exigencies of war have controlled events thus far, and will shape them until the articles of peace are signed. The final disposition of the Philippines will be determined by the absolute necessities of the situation. It will not be in accordance with the dictates of humanity to turn the islands back to Spain, in any event. Such an act would be a travesty on our position regarding Cuba. Humanity itself may compel this nation to retain the Philippines, and if such is the case, the occupancy of the Caroline and the Ladrone Islands, become almost a necessity.

The nation is simply following its manifest destiny. The people are simply meeting new conditions in the full spirit of our liberal and progressive ideas. No nation in the wide world is so fitted for the establishment of colonies and for the extension of territory as the United States. Our people know what real freedom is and will guarantee that only to our colonies that this nation may establish or any countries it may annex.

MITE SOCIETY.

The Mite society of the First Baptist church will meet with Mrs. Brownell, corner of Fourth and Adams streets, Friday evening at 4 o'clock.

SOCIETY NOTES.

WHICH?
In a letter he wrote from the city. He called her a "pretty young girl."
He's a fellow that's awfully witty. And he keeps all the girls in a whirl.
Now, a compliment meant he, or pity? Should she kiss him or wish he were hung?
Was the accent he meant on the "pretty"?
Or was it to be on the "young"?
—Tom Hall.

Mrs. Charles McQuot made an admirable hostess for the Young Ladies' Circle club Tuesday morning. The McQuot home, on Broadway, was prettily arranged on this occasion. June roses were placed in a delightful confusion on the table and mantle in the parlor and hall, where the card contestants vied with each other for the victory. To Miss Mae Terrell first club prize was presented, and to Mrs. King Brooks the visitors' prize was presented. The players were: Misses Joe Bloomfield, Pauline Houston, Annie MacVicar, Edna Speers, of Chicago; Mary K. Sowell, Robbie Cobb, Mac Terrell, Blanche Bloom, Emma McKnight, Martha Leach, Elizabeth Sinnott, Jeanette Campbell, Fannie Taylor, Richardson, of Kansas; and Louise LaRue, of Bowling Green. Medallions George Langstaff, Jr., King Brooks, Ed Vaughan, Charles Morris and Edwin Rivers.

On Friday afternoon Mrs. Edwin Allen Rivers entertains the Young Ladies' Circle club at the residence of Mrs. H. E. Thompson, on South 8th street.

Complimentary to Mrs. Woods, of Baton Rouge, Mrs. O. L. Gregory entertained a small party of friends Tuesday morning.

Mrs. Irene Cox entertained Tuesday evening at cards in honor of Mrs. Woods, Mrs. Wolcott's guest from Baton Rouge. The pretty prizes were awarded Miss LaRue, of Bowling Green, and Mrs. L. W. Boswell.

Mrs. Rankin and grand-daughter, Miss Nellie Kirkland left Wednesday for a two weeks visit to Dawson.

Miss Irma Hecht has come to Louisville to visit friends.

Miss Mary Caldwell is at Dawson for her health.

Mr. Cook husbands went to Dawson Tuesday for his health.

Congressman C. K. Wheeler and family will arrive home tomorrow from Washington.

Mrs. Harry Ashcraft, of Memphis, will arrive in the city Saturday on a visit to Maj. and Mrs. J. H. Ashcraft.

Miss Elizabeth Segenfelder returned today from Louisville, where she has been on a brief visit.

THE "CHAP" BOOK.
It is easy to place its beginning, but to say where it will end is another thing. Who but a summer girl would think of such a thing? A "chap" book, wherein shall be written the names of the chappies who meet at the seashore, the mountains or the merry summer resorts this season.

This book is sacred to the summer girl, and is kept where no prying eyes can peep.

Opposite the names of the young men she will write his style (if he has any), character and occupation, and whether she loves him, or is indifferent toward him.
Doubtless many a gay young coxswain would feel his feathers fall should he by accident run upon this wondrous volume of some fair maid, in whose estimation he thought he ranked A1 in her category of lovers. And many a modest, unassuming fellow would be as equally surprised to know in what a favorable light he stood.

Another interesting book for the summer tourist is called the "photographic" book. In this age and time of kodaks and cameras anyone can be the owner of such a book.

A large scrap book is purchased before going away and its pages are filled with scenes of many merry parties, groups, views, etc., that you will witness on your trip, and when the winter winds sigh in the branches overhead and you sit in luxuriously cushioned chairs toasting your toes before the glowing embers, your thoughts go back to the merry summer time and that dear old volume which was your summer joy, you find is your winter joy, and will be a joy forever.

The lake at LaBelle park seems to be a popular rendezvous for the society folk this season. Almost any afternoon late you can see a number of well known people board the Broadway car with baskets filled with daintily prepared luncheons and bathing suits under their arm, preparatory to spending the evening feasting and swimming. Wheeling seems to be another pleasant feature of the moonlight and merry parties you see on their way to the cool country pines. With the coming of the new moon many more of these enjoyable trips will be taken.

With such a grand old river as the Ohio it seems strange that more hostess parties are not given on its placid waters. In former days the very high priestesses of society's temple were among its devotees, but now we have many desirable diversions for those who seek relief from the monotony of such amusements. Our suburban parks with their dancing pavilion and summer theater that are devoutly patronized, have all now turned in their direction, causing the frivolities of other days to pall.

What a concerted world this is! From merry England comes the startling intelligence that the lady's new cat is to have a coat made of her hands. The hand has long been the

The veins are painted pale, delicate blue, the fingers posed in the most artistic way possible, and the coloring is an exquisite transparent white. The announcement is made that Miss Loulou Fay Hacker, daughter of Capt. and Mrs. J. S. Miss Hacker went there with her aunt, who is a missionary to that country. Mr. Danforth was formerly from Massachusetts. Miss Hacker formerly lived in Cairo, but is well known in Paducah, having visited here several times, and been the guest of Miss Henri Clark, on Clay street. She was very popular while here.

BICYCLE NOTES.

First impressions of a bicycle are often based on the appearance of the enamel. But first impressions sometimes do not wear well.

Do not praise your wheel too much until you have ridden it at least fifty miles.

Riding centuries has not added much to the sum total of cycling happiness.

Paper rims are now made as light as the wood rims and are also entirely waterproof.

Thirty-inch wheels will never become very popular owing to the additional weight they entail.

The craze for large sprockets is dying out. The weight of the chain and the added friction has effected this reform.

STILL CAVING.

The Water Pipes on Court Street in Danger of More Breaks.

A bad state of affairs exists on Court street between Third and Fourth, where the sewer ditch caved in a few days ago. There has set in a general tendency for the entire ditch to cave, and strenuous efforts are being made to prevent it.

When the grade was given, according to the water men, Paducah's efficient city engineer gave the line directly over the water pipe. It was subsequently moved, to prevent a collapse of the entire water main, but not far enough, and when the ditch for the main sewer was dug, it cut into the old ditch dug for the water pipes years ago, and which, following the natural inclination of such things, never reverts back to its former condition of compactness or solidity. The result is that when it becomes loose by rain, it caves from around the water pipe, and the dirt above falls on the heavy pipe and breaks it.

BEST OF THE SEASON.

The Dick Fowler will next Sunday give the people the best opportunity she has ever done to take a nice and pleasant ride on the river. She will go to Owen's Cave and Golconda, giving the choice to see either place. Round trip only 50 cents. She will have on board a party from Metropolis.

Southern Homeseekers Guide

A new book, entitled "Southern Homeseekers Guide," has just been issued. It is a guide for those who are seeking a home in the South. It contains a list of the best places to live in the South, and also a list of the best places to buy land. It is a book that is well worth a look.

For the 4th of July, low rates of fare will be in effect between all stations on the Illinois Central. Tickets on sale July 1st, 2nd and 3rd, good to return until July 7th, inclusive.

A NEW ATTACHMENT.

Mr. D. Boulois, of Oza, was in the city today after supplies for his wheat threshing machine. He reports a good wheat crop in his section and expects to start his machine in a few days. Mr. Boulois has invented an original attachment for his threshing machine which classifies the grain as it comes from the threshing.

Argument

Is not necessary to convince a thinking person that money is the way away when invested in a typewriter that has not passed its experimental period.

Years of hard, thoughtful effort and continual experimenting are necessary before reaching approximate perfection in a writing machine. Is it wisdom, then, for one to contribute to this cost of experiment?

Reputation Established

Years of experience, constantly increasing sales the world over—the natural result of typewriter excellence—is the unquestioned record of

THE SMITH PREMIER TYPEWRITER.

When you buy a Smith Premier you obtain a writing machine that is in advance of all others in points of improvement and durability. Do not pay for the costly experiments of others. The Smith Premier passed its experimental period years ago. It now stands the leader among writing machines. Descriptive catalogue free.

OLD GLORY FOREVER!

In Humanity's Cause Our Flag is Unfurled!

"The conflict deepens. On ye brave, Now rush to glory!"—Cuba save. Brave patriots, all "your banners wave, And charge with all your chivalry."

Our Atlantic's wave McKinley brave Sends our noble men, undaunted, true, A fair isle to save or find a grave, And plant its new "red, white and blue."

"What higher aim can patriot know? What destiny more grand? Than the soldier's fight for freedom's right, To free a suffering land?"

The Spanish Dons are long shall taste Our "Uncle Sam's" pills, And freedom's bird shall proudly soar In the Pride of the Great Antilles.

There Are Two Ways

Of getting glasses—one to go to a first-class optician and get what you need; the other, to go to a merchant who keeps spectacles and sells them so cheap, make a "grab in the bag," as it were, get a pair that don't fit you (although it may seem so for the moment), and run the risk of ruining your eyesight entirely—all for a very small difference in expense. If you need the services of a good optician we can serve you well and cheaply. No charge for examination.

PLAYING BURGLAR,

One Boy Killed in Mayfield by a Companion—Sad Accident.

Otto Covey, aged 11, was shot and killed by Charlie Fincher, aged 13, at Mayfield, late yesterday afternoon. The boys were playmates and were playing burglar. Fincher owned a 38-caliber pistol, and was guarding the house when the other boy, in the role of a burglar, entered the window. His companion drew the pistol and fired, the ball striking the boy in the breast and killing him instantly. There was great sadness in the two families over the tragedy, which was the result of reckless play. The boys were the best of friends.

POLICE COURT.

Mr. Ed Lehrer was Acquitted of a Most Serious Charge.

He did Not Carry His Pistol Concealed—Other Proceedings of the Court.

Mr. Ed Lehrer, clerk at Henry Schmidt's, on Tennessee street, was charged in the police court this morning with carrying concealed a deadly weapon. He was arrested on a warrant sworn out by Ed Wiley, a small colored boy who had been annoying him at the grocery for sometime.

The evidence showed that Wiley had been using all manner of ugly language about the store, and had been ordered away several times before he left. He then went outside and picked up two stones, which he drew on Mr. Lehrer. His brother Si Wiley, who was a man, was also there, and Mr. Lehrer, fearing trouble, went in and got a pistol, which he carried out partially in his hand. The evidence showed that he did nothing wrong, and the case was dismissed. Ed Wiley, one of the boys, was fined \$10 and costs for using profane language.

Jim Dunlap, Starling Smith, Joe Briggs and Anderson Tree, colored, were charged with assaulting George Morehead. He claimed that on the 5th last he went to a house on Trimble street to do some work, and that gang of boys assaulted him. He was sure Briggs was in the crowd, but was not sure as to the others.

Briggs said he was there, but helped take the others off Morehead, instead of assaulting him. Smith and Tree were not in the crowd, he said, but Dunlap was. The case against Briggs was continued until next Thursday, and Smith and Tree were dismissed, and warrants will be issued against the others.

John and Tom Covington, of the county, were fined \$1 and costs each for drunkenness.

CITY NOTES.

Mayor Lang today furnished transportation to B. F. Allen and Mrs. Tennie Fox, who had been here for some time, to Hunsacker, Tenn.

There is a bad pond of water between Second and Third and Adams and Harrison streets, and today the mayor was called to look at it. He has notified the street inspector to abate the nuisance as soon as possible.

The next councilman from the Fifth is still the topic often heard on the streets, and there is much guessing as to whom it will be. Many good men are mentioned for the place, but no one seems to have much the advantage. Ex-mayor Yeiser still says he is not a candidate, but his friends claim this does not necessarily mean that he will not have the position if elected to it.

Jim Toler, the man who is known all over the country for his penchant for having scraps when he strikes a saloon and wants a drink of whiskey, was placed on the chancery yesterday, and soon took a notion to get out of working by feigning sickness. The officers were not to be thus fooled, however, and Jim was cured with a club. At last accounts he was doing good work, and had had no more scraps.

The Kid Carroll matter, mentioned in the Star several days ago, is still agitating some of the St. Louis papers. The Kid Carroll here, however, or who was sent to the penitentiary from here, is not believed to be the one wanted, as his right name is Hawley or Halley. He is said to have mentioned the fact in jail here to some of the prisoners, that he killed a man in St. Louis, but he said it was a negro rooster on a steamboat. Then the Kid Carroll wanted in St. Louis is a young man, comparatively, while the one here was older.

Marshal Collins has been notified by the St. Louis authorities to keep a lookout for "Cincinnati John." The marshal does not know who is meant by this. The Cincinnati John known here is supposed to have been drowned off a boat several months ago.

The new dog tags are expected. Nearly five hundred dogs have been taxed this year, double the usual number.

S. G. Hardman, agent for the Sun Insurance Co., was fined \$1 and costs in Justice Smith's court this morning on a charge of using insulting language towards Mrs. James Spence. Hardman is alleged to have gone there to collect \$1 and find, and then to have abused the woman. Quite a scene was created in the court room when the defense attempted to prove that the character of the prosecuting witness was not good. She wept and carried on in such a manner that court could hardly proceed.

Justice James P. Winchester has returned from Dawson, accompanied by his daughter, Miss Elba, who has been there with him. He is not visibly improved, his many friends will regret to learn, and his mind is somewhat affected by his illness.

The tax on cigarettes has had a wonderful effect in reducing the sale of them, and the demand has decreased almost double. A single package now costs ten cents, or two for fifteen. Most of the dealers have been compelled to resort to tobacco and cigarette papers.

Constable Jack Randolph went out to Bond's Station this morning to make an arrest. He is expected back tonight.

This forenoon a warrant was issued by Judge Sanders against Robt. Hays, son of the barber, charging him with jumping on and off a street car, refusing to pay his fare, and abusing the motorman. Hays is the young man arrested at the baseball park last summer with a pistol concealed on his person. He will be tried in the police court tomorrow.

For a week or more the bill posters have been on the lookout for miscreants who have made it their business to go around and tear from the bill boards, all the posters thereon. They looked in vain for them, but it is thought now have the right persons. Warrants were today issued against Frank and Tiny Martin, who live on North Fourth street, near Broadway, charging them with the offense. If guilty of trespass, it will no doubt go hard with them, as the bill posters are not inclined to overlook the vandalism.

Warrants were today issued against the negroes who flourished their pistols as they left the wharf on board the Chattanooga last Sunday, in full view of the people on the wharf, and against those who fired their pistols when the boat returned. The names were not given out by the police.

The Elks meet in regular session tonight, and will have an initiation. A large crowd is expected. The sewer work still progresses, under the fine weather, and today the workmen are nearing Sixth on Court street, where the main sewer is being laid.

JAS. W. GLEAVES & SONS

EX-CHAMPION W. H. LAYTON.

He Is Now in Paducah and Will Put on the Gloves Tomorrow Night at the Base Ball Park.

Will Fight Jerome Smith—Something Interesting About the Ex-Champion Welter-Weight.

Perhaps few people know that one of the most celebrated athletes and prize fighters in America now makes his home in Paducah, and will be seen in the ring tomorrow night as a contestant in a glove match between himself and a well known local boxer, Jerome Smith. He is none other than W. H. Layton, once welter-weight champion of the world. The mill will take place at the base ball park, and the crowd will doubtless be large. Paducah people are being aroused to surprising interest in the matter of sport, and the number and standing of the people who went out last week to see the glove contest was a pleasant surprise.

The fact is that in any other place in the country "Billy" Layton's name at the head of a program of any description would be sufficient to pack the house. Four years ago you could not pick up a paper that did not contain something about him. In those days he was in clover as it were. He was champion welter-weight of the world, and enjoyed a wide-spread popularity and patronage. He fought many a battle, and won them all, with few exceptions. He has stood up before the moribund Corbett, before Fitzsimmons, and before many another celebrity, and has fought in nearly every civilized country in the world, even in South Africa.

"Billy" was defeated in Chicago four years ago for the championship and \$12,000, by Tommie Ryan, and since then he has enjoyed the distinction that inevitably becomes that of the defeated champion. He philosophically observes that his place has been taken by a luckier man, and seems resigned. It is only the fate of the fighter who gets whipped, after all.

He is an authority on sports, however, and is yet a good man in the ring. He had a penchant for knocking out blacksmiths, and says he has hocked more blacksmiths than any other class of men. Mr. Smith, whom he will meet tomorrow night, is a blacksmith, and tonight Layton will go down to Metropolis, by special invitation, and meet a blacksmith named Jack Sheppard, of that place. Layton will remain in Paducah for some time. He is at the head of a big athletic club in Hot Springs, Ark., and is off for the summer. He will doubtless spend several weeks here, and will incidentally awaken a great interest in sports. In October he will go to New York and there meet for a handsome purse, Jimmie Ryan, and expects to begin training by the time he is ready to leave Paducah.

Layton knows all that there is to know about racing, cycling, boxing, and every other sport. He was with the Kid McCoy aggregation last year, and is a great admirer of the promising young pugilist. He predicts that McCoy will be champion of the world inside of 18 months. Layton himself has been in the ring for fifteen years, and may yet win back his old place in the world of sports. Mr. Layton was offered a commission in the Tennessee army not long ago. He was at one time physical

NIGHT RACING.

Something Decidedly New in Paducah—It Will Be Popular.

Mr. W. H. Layton in Charge of the Program—Now Here Making Preparations.

Mr. W. H. Layton, known to the sporting world as "Billy" Layton, will inaugurate something new in Paducah in a short time. He is to have at the base ball park, beginning on the night of June 29th, night bicycle races between five experts from other places. The race will begin on the 29th, and continue one hour and a half each night for six consecutive nights. The fair cyclist who wins will then be awarded the prizes. The work of placing in a hoard twelve-lap track was begun today, and the track will be completed in a few days. It will be placed in the base ball park, opposite the grand stand, in full view of everybody. Mr. Layton, of whom more is said in another column, is confident of making a success of the venture, and the novelty is one that will certainly take well.

The young lady experts who will contest are expected Monday, and their names will be given later.

Her Guess.

He—For a week I have not slept an hour at a time. I have tossed upon my bed night after night, only to arise weary and depressed in the mornings. I cannot eat. I come and go and am weighed down with one all-prevailing thought. It is with me in my waking hours. It is with me in my dreams.

She—Ah, it is too bad. I'm sorry for you.

He—Marie, have you not guessed what it is that troubles me?

She—Yes. You're afraid there may be another call for men and that you'll have to go and fight.

An hour afterward he was still walking around in a circle, wondering whether she really meant it or not.—Chicago Daily News.

A HOPEFUL SIGN.

Studies That Are Being Inaugurated for Busy People.

It is a hopeful sign, hopeful in more ways than one, when business people arrange their affairs so that they can take a little time from their daily occupation to study the beauties of art and nature. The benefit of this, not only to the individual, but to their families, is past computation. Interested and encouraged by the conversation of their elders, the children will soon become enthusiastic, and will take up with a greater degree of intelligence the various branches of study, many phases of which will be to them as household words.
